

Santa Barbara Permaculture Network & Ecologistics
present:

A Central Coast Bioneers Film Showcase
Bioneers, Revolution from the Heart of Nature

Sunday
April 9, 2017
5 - 7pm

Admission \$5, Students Free

Fe Bland Auditorium/BC Forum,
Santa Barbara City College
(West Campus)
800 Block of Cliff Drive
Santa Barbara, CA

Featuring filmed keynote presentations
from the 2016 Bioneers Conference,
with a focus on Ocean & Climate:

Bioneers are the innovators & visionaries of our time, who look deep into the heart of nature for solutions to a better future. Join us for a taste of the Bioneers experience:

SHORT FILMS:

- Louis Masai, eco-artist, mural artistry & coral reef campaign
- Bill McKibben, founder of 350.org, shares Climate update; where we are politically & scientifically
- Janine Beynus, founder of the Biomimicry Institute; shares visionary nature-inspired innovations
- Xiuhtezcatl Martinez, founder of Earth Guardians, indigenous youth environmental activist

FEATURE FILM: The Least Deadly Catch: Ocean Farming in the Climate Change Era, with Bren Smith

Bren Smith, founder of GreenWave & winner of the 2015 Buckminster Fuller Challenge award, became a commercial fisherman at age 14, but witnessed the destruction of the ocean firsthand. In a quest for a better way, he pioneered a revolutionary new model of harvesting bounty from the seas. He describes his innovative, practical design and future vision for "restorative 3-D ocean farming". It restores ecosystems, mitigates climate change, creates jobs in a blue-green economy, and ensures healthy, secure local food for communities.

With Special Guests Antoinette & Daniel Marquez of Pharmersea & AMA SeaBeauty, talking about their local model of the Blue Green economy & sea farm off the coast of Goleta, CA

Enjoy special exhibitors prior to the event!
